 Healthy El Monte Walking Club

The **PLACE (Policies for Livable Active Communities and Environments)** Initiative is a grant funded program through the Los Angeles County Department of Public Health. The program is dedicated to fostering policy change that supports the development of healthy, active environments for all Los Angeles County residents. The City of El Monte will develop a Health and Wellness Element for the El Monte General Plan, with proposed components addressing healthy lifestyles and physical activity, access to healthy food, public safety and security, and access to recreation. The physical project component of the PLACE Initiative was the development of a 1.1 mile circuit walking path with mileage markers and signage connecting various civic, educational, retail and health care facilities in the area. The walking club is funded by the California Healthy Cities and Communities Initiative through the Center for Civic Partnership.
